COURSES OF STUDY.

The undergraduate courses of study leading to degrees are twelve, each requiring four years. These are the classical course, the Latin scientific course, the scientific course, the chemical course, the agricultural course, the horticultural course, the forestry course, the pharmacy course, the civil engineering course, the mechanical engineering course, the mining engineering course, and the electrical engineering course. The classical course leads to the degree of B. A., the Latin scientific course to Ph. B., the other courses to B. S. The shorter courses, leading to a certificate, are as follows: The courses of one and two years in agriculture, the course of two years in pharmacy, and the six-week course in general agriculture and dairying. Three-week courses in horticulture and poultry management are also offered. The course in the school of law is three years and leads to the degree of LL. B.

COURSES OF STUDY.

Among the numerous courses of study offered by the university is one which leads to the degree of bachelor of the science of agriculture. This course requires four years for completion, and during the last two years the student selects most of his studies in work given by the departments of agriculture and horticulture, and in the courses in agricultural chemistry and economic entomology. Post-graduate courses leading to advanced degrees are provided, and special courses in subjects relating to agriculture are also arranged. There are also short winter courses in agriculture and dairying.

COURSES OF STUDY.

The university is divided into six colleges, as follows: Agriculture and Domestic Science; Arts, Philosophy, and Science; Engineering; Law; Pharmacy; and Veterinary Medicine.

The College of Agriculture and Domestic Science offers six distinct courses of study: Four-year courses in agriculture, horticulture and forestry, and domestic science; two-year courses in agriculture and horticulture and domestic science, and a two-term course in dairying. Degrees are granted in the four-year courses as follows: B. S. in agriculture, B. S. in horticulture and forestry, and B. S. in domestic science.

The College of Veterinary Medicine offers a three-year course leading to the degree of D. V. M., and to a certificate of veterinary surgeon to those who fail in certain requirements for admission.

Puls, *Milwaukee*; M. C. Mead, *Plymouth*; Edward Evans, *La Crosse*; E. A. Edmonds, *Oconto*; August J. Myrland, *Grantsburg*.

COURSES OF STUDY.

The long course requires four years, leading to the degree of B. S. Agr. The short course covers two terms of fourteen weeks each. A certificate is granted to those completing the course. The winter dairy course lasts twelve weeks, and requires for admission five months' previous training in a creamery or cheese factory. A summer dairy course is offered to a limited number of students, who will be admitted without previous factory training, and may remain the whole season. To secure a dairy certificate the student must have two seasons' actual practice in a factory, one of which must follow his work at the dairy school.
